

Long Wong, MD, PhD, FAAFP
Texas College of Osteopathic Medicine
Family Medicine and Osteopathic Manipulative Medicine
Institute for Healthy Aging
Email: Long.Wong@unthsc.edu

Area of Expertise

Dr. Long Wong believes that being an excellent family medicine physician requires several strengths—good communication with patients, superb medical knowledge, and excellent techniques. Doing the job well also calls for collaboration with specialty physicians. In addition, Dr. Wong says the treatment plan for each patient needs to be individualized.

He is an American Board of Family Medicine (ABFM) certified physician and an American Medical Association (AMA) recognized physician. Dr. Wong is a member of several professional organizations, including the AMA, Texas Medical Association (TMA), and American Academy of Family Physicians.

Dr. Wong also serves as a Master of Medical Science Student Shadow for UNT Health Science Center-sponsored activities.

Qualifications

MD, Norman Bethune Medical University
PhD in Pharmacology, University of Minnesota
