Area of Expertise

My research has focused mainly on workplace supportiveness, family obligations, and the field of student affairs. My main role is to serve as a practitioner in higher education and to foster student success. I am passionate about helping students succeed professionally and academically by serving as an advocate for student needs while encouraging quality and achievement.

Qualifications

BS in I/O Psychology, Middle Tennessee State University

EdD in Higher Education, University of North Texas

MA in Student Affairs, Western Kentucky University
