## Area of Expertise

My current research interests center around adolescent risk behaviors. I am studying alternative tobacco products, including hookah and electronic cigarette rates, and trends among Florida teens and college students; co-occurring substance use among young adults, particularly the role of alcohol and tobacco concurrent use; body image perception and smoking rates, particularly for adolescent females; and developing public service announcements in tobacco prevention and cessation to be used for college students.

## Qualifications

BS in Psychology, Eastern Michigan University  
MA in Sociology, Western Michigan University  
PhD in Medical and Applied Sociology, Western Michigan University
