Area of Expertise

I conduct both clinical research and research in the area of Scholarship of Teaching and Learning. From a clinical standpoint my research includes observational studies evaluating the safety and efficacy of medications in various inpatient or acute care areas. My clinical interests include cardiovascular surgery, antibiotic therapy-related adverse effects, pain management, and perioperative care. Regarding Scholarship of Teaching and Learning, I have experience with a wide array of survey research as well as in assessing learning outcomes of innovative teaching techniques.

Qualifications
