Area of Expertise

Dr. Fulda is the director of the North Texas Primary Care Practice-Based Research Network (NorTex). NorTex is a network of primary care clinics that conduct research to improve the health of our community. She primarily conducts research on health disparities; however, NorTex research covers a wide array of research topics relevant to primary care. Her research is interdisciplinary and includes investigators from many fields. Dr. Fulda also has experience in evaluation and has served as an evaluator for multiple federally funded projects. She has specific expertise in public health, health disparities, clinical research, and research design and analysis.

Qualifications

BA in Biomedical Science, Texas A & M University
Master Degree in Epidemiology, UNT Health Science Center
